

MIRZA BAIG

Compliance & Regulatory Affairs Professional | MSc Project Management
(+49) 176 2504731 | mm.wali.baig@gmail.com | Berlin, Germany | <https://www.linkedin.com/in/mwalibaig01/>

PROFESSIONAL SUMMARY

Compliance and regulatory affairs professional with over 5 years of experience spanning financial compliance, PMO governance in clinical research, quality assurance, and regulatory reporting in IT-intensive environments. Skilled in compliance monitoring, policy development, control testing, risk assessments, and multi-stakeholder reporting. Experienced in supporting governance frameworks aligned with financial services regulations and internal audit standards. Proficient in process automation, KPI dashboards (Power BI), and cross-functional coordination across international teams.

CORE COMPETENCIES

Regulatory Compliance & Monitoring: Compliance Risk Assessments, Thematic Reviews & Control Testing, Policy & Procedure Development

Governance & Reporting: Board & Senior Management Reporting, Provider Performance Reports, KPI Dashboards (Power BI), Compliance Monitoring Plans

Process Improvement & QA: Lean Six Sigma Green Belt, Root Cause Analysis, Defect & Issue Lifecycle Management, Internal Audit Support

Tools & Systems: MS Office (Excel, PowerPoint, Outlook, Teams) SAP, Jira, Asana, SharePoint, Power BI, Looker, Python (basic)

Languages: English C1 (Professional), German B2 (Professional), Urdu (Native)

PROFESSIONAL EXPERIENCE

Compliance & PMO Administrator | *DM Clinical Research* | *Houston, TX, USA (Remote)* Apr. 2022 – Present

Financial services-adjacent compliance and project governance role supporting regulatory adherence, provider oversight, and reporting across Finance, Risk, and IT functions.

- Monitored and ensured organizational compliance with internal policies and regulatory requirements across multiple parallel workstreams; maintained and updated compliance registers, policy documents, and procedure libraries.
- Designed and maintained a Compliance Monitoring Plan (CMP) framework for tracking control effectiveness; performed regular control testing, documented findings, and escalated deficiencies to Senior Management.
- Conducted compliance risk assessments, thematic reviews, and gap analyses across operational functions; produced remediation action plans with assigned ownership and deadline tracking.
- Prepared periodic compliance reports and PowerPoint presentations for Board of Directors, Conducting Officers, and Senior Management, including KPI summaries, breach registers, and regulatory update briefings.
- Developed and automated provider performance reports and regulatory dashboards using Power BI and Looker, reducing manual reporting effort by approximately 25%.
- Supported SAP-based system improvement projects; documented regulatory requirements, tracked implementation milestones, and validated compliance of system outputs against regulatory obligations.
- Coordinated internal and external audits: managed audit documentation packages, tracked remediation actions, and ensured timely evidence submission.
- Applied Lean Six Sigma methodology to identify process gaps in compliance workflows; implemented process improvements that increased reporting accuracy and consistency.

- Served as a key liaison for compliance queries from cross-functional teams including Finance, Risk, Legal, and IT; promoted a compliance-first culture through guidance, training materials, and internal communications.
- Coached and quality-reviewed deliverables of junior team members; coordinated task allocation and workflow prioritization across the compliance function.

Software Quality Assurance & Compliance Analyst (Intern) | *Abacus Global / JS Bank Zindigi* | Islamabad, Pakistan Jan. 2021 – Mar. 2022

Regulatory compliance and quality assurance role within a regulated Fintech environment, supporting financial services product delivery against compliance and operational standards.

- Ensured the Zindigi Mobile Banking application met regulatory and compliance requirements through structured testing of customer and agent transaction flows in a licensed financial services context.
- Designed and executed compliance-oriented test plans covering regulatory requirements, functional controls, data integrity, and system-level validation across multiple device categories.
- Maintained a full defect lifecycle tracking register; documented compliance-related issues, escalated critical defects, and monitored remediation timelines in alignment with audit standards.
- Collaborated with development, product, and UX teams in Agile sprints to validate corrections and ensure regulatory obligations were embedded in product delivery cycles.
- Gained hands-on experience with compliance monitoring tools, defect tracking systems, and regulated financial environment controls.

ADDITIONAL EXPERIENCE

Vice President – Education & Communications (Voluntary) | *Toastmasters International* | Karachi, Pakistan Mar. 2021 – Dec. 2022

- Planned and delivered structured governance programs; coordinated 20+ events using Agile methods; produced stakeholder communications and compliance-oriented progress reports.

Project Management Volunteer | *DICE Corporation* | Karachi, Pakistan Nov. 2017 – Dec. 2020

- Supported end-to-end delivery of product initiatives: planning, milestone tracking, resource coordination, and cross-functional stakeholder reporting.
